

January 12, 2001

TO: Missouri Local Public Health Agencies, Missouri Influenza Sentinel Physicians

FROM: Howard Pue, D.V.M., M.S., Chief  
Section of Communicable Disease Control and Veterinary Public Health

SUBJECT: Weekly Missouri Influenza Report 2000-2001 Season  
(All data in this report are provisional and may change as reports are updated.)

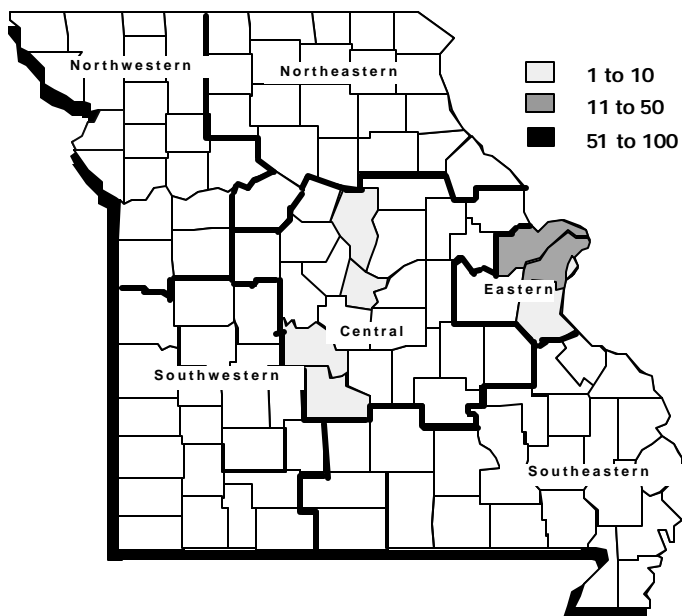

The following information may also be found on the Missouri Department of Health (MDOH) Homepage at [www.health.state.mo.us](http://www.health.state.mo.us) at Diseases & Conditions. Missouri is reporting "sporadic" influenza activity to the Centers for Disease Control and Prevention.

In Missouri, influenza B has been confirmed in Greene County, St. Charles County, St. Louis County and St. Louis City.

Community Outbreaks							0
LTC Facility Outbreaks							2
Other Outbreaks							0

Week: 52	For the Week Ending: December 30, 2000			
	Season-to-date	Week 52	Week 52 Last Season*	10 Year Average*
Pneumonia & Influenza Deaths	200	21	14	33

Sources of Data: Laboratory confirmed cases are reported to the MDOH passive communicable disease surveillance system through the disease registry. Influenza-like illness, pneumonia-like illness, clusters and outbreaks are reported through the active surveillance system. Pneumonia and influenza deaths are reported through the MDOH, Bureau of Vital Records.

\*The influenza season begins with week 40 (week ending October 7, 2000) and ends with week 20 (week ending May 19, 2001). The influenza season for previous years extended only through week 17. Therefore, the 10-year average is through week 17 only.

National influenza surveillance information is available from the Centers for Disease Control and Prevention at [www.cdc.gov/ncidod/diseases/flu/weekly.htm](http://www.cdc.gov/ncidod/diseases/flu/weekly.htm).

The Missouri Department of Health after hours emergency number is (573) 751-4674.
